The Jakarta[®] EE Marks

The Jakarta EE Working Group logo prominently features a tri-colored boat (left) and the brand wordmark, Jakarta EE (right). Behind the Jakarta EE name lies a history with the Apache Jakarta project, which was home to many exciting innovations and helped establish a strong, open source community in the Java ecosystem. By resuming its use, we pay tribute to the Java community's origins.

The boat's dynamic angles capture a feeling of movement and swiftness, inspired by the quick pace of innovation in technology. In addition, the boat signifies the journey from commercial Java (Java EE) to open source.

Logo Variations

Color Logo

In situations where the background color is too dark for the stacked logo with the dark font, use the yellow font and omit the dark purple from the logo.

One Color - Vertical

We've also modified the vertical logo for uses in black and white when vertical spacing is narrow.

One Color - Horizontal

We've modified the horizontal logo for uses in black and white for legibility and versatility.

Jakarta EE Member & Compatible Product Logos

Jakarta EE Member Logo

The Jakarta EE Member logo may be used by Strategic, Enterprise, Participant, and Individual Committee Members that are current members of the Working Group to identify their participation and show their support for the initiative. Use of Jakarta EE Member logo is subject to the **Jakarta EE Trademark Guidelines**.

Compatible Product Logo

The Jakarta EE Compatible logo will be used to identify products which are certified as compatible implementations of Jakarta EE as per the requirements stipulated in the Jakarta EE Trademark Guidelines.

Logo Usage

If you've found a website that misuses an Eclipse Foundation trademark, we'd like to hear about it. [Send us an email to report it.](#)

Full-color logo on white

When applicable use the full-color version of our logo on a white background.

Clear space

The amount of clear space around our logo should be equal to or greater than the height of the capital "J" in Jakarta.

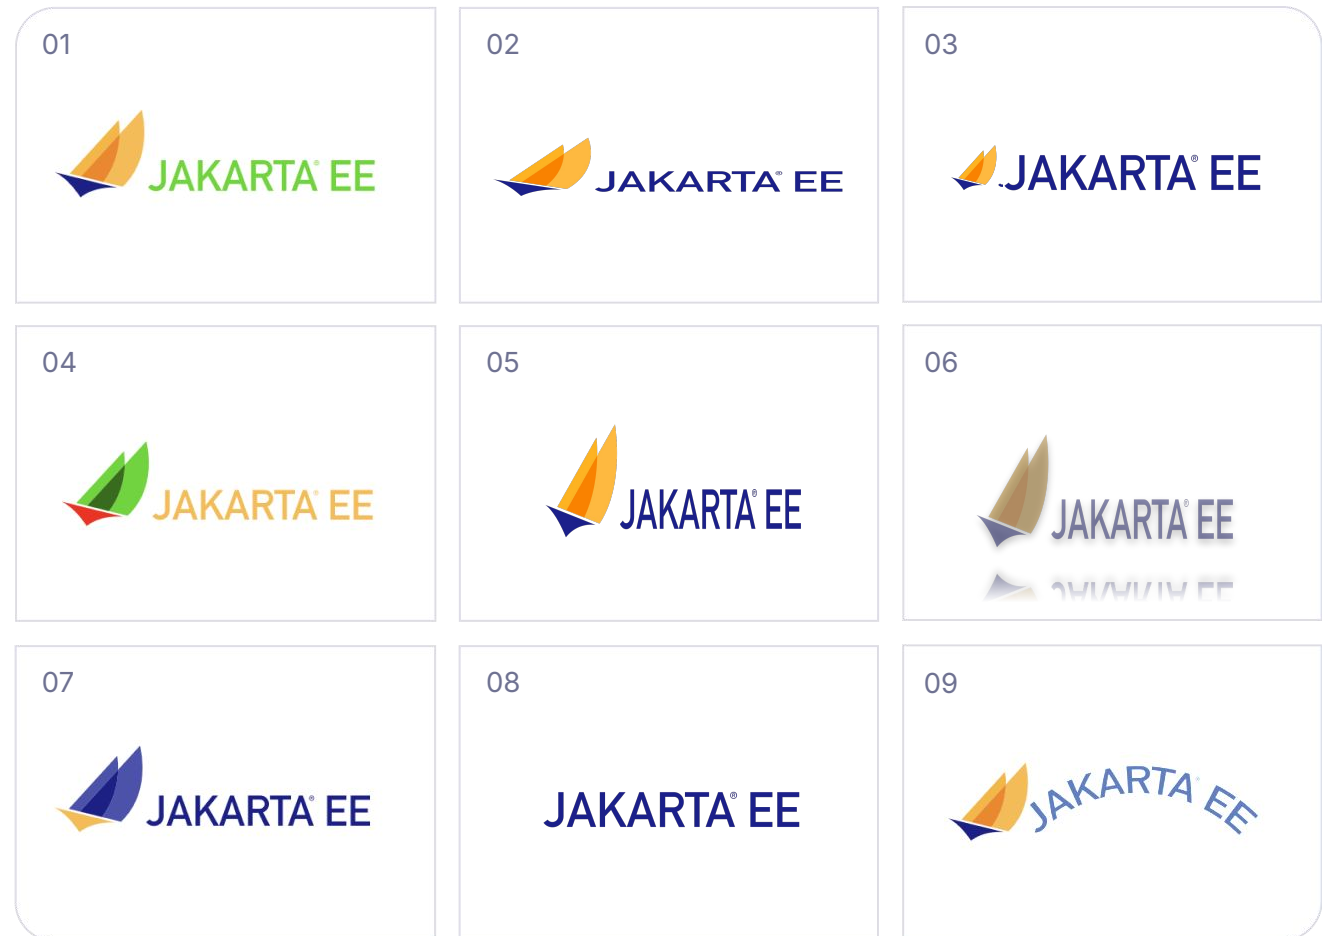

Minimum size

The minimum size for screen application of our logo is 80 px in width.

Logo Misuse
